

## RAIL EMPLOYES FORECAST SETTLEMENT

### EXPECT DIFFICULTIES TO BE ADJUSTED BY MONDAY

#### SPOKESMAN FOR BROTHERHOOD CHIEFS MAKES ASSERTION

**Railroad Managers Do Not Share Optimism of Employees Who, It is Understood, Take Stand that Settlement is Contingent Upon Decision Favorable to Adamson Law Monday—Conferences Will Be Resumed This Morning.**

NEW YORK, March 17.—After a forty-eight hour truce between the four railroad brotherhoods and the railroads had been declared here late today, thus averting the great progressive strike that was to have begun at 7 o'clock tonight, W. G. Lee, chief of the trainmen and spokesman for the brotherhood chiefs, asserted that he believed an amicable settlement of all the difficulties would be reached Monday.

#### May Clear Whole Situation.

This was taken to mean that the efforts of the president's committee of mediators representing the council of national defense not only had been successful in halting the strike tonight but that with the resumption of conferences tomorrow and Monday the whole situation probably would be cleared and the country again assured of normal transportation conditions.

The optimism of the brotherhood chief, however, was not shared by the railroad managers. While no statement was forthcoming from them, it was asserted that the settlement of the differences was entirely contingent upon a decision on Monday by the supreme court favorable to the Adamson law. In that event, it was understood, they agreed that they would accept the application of the law on the basis of 10 hours pay for 8 hours work, with pro rata pay for overtime.

#### Make No Other Concessions.

No other concessions were made and the question as to what turn the situation would take in the event of no decision Monday or of a decision declaring the Adamson law unconstitutional remained to be determined according to an official in close touch with the managers.

Mr. Lee's reassuring statement came after he was informed that many members of the four brotherhoods in Ohio, West Virginia, Pennsylvania and Illinois, failing to receive word of the postponement of the strike, actually had quit work tonight. He said he was not surprised at this inasmuch as there was so little time—less than three hours—in which to communicate with the men.

"That should be sufficient proof of the fact that we were not talking idly when we said all our members would obey the strike order," said Mr. Lee. "We knew they would—every one of them."

It was agreed with the railroads, he added, that in the event of the men failing to receive word of the change in the situation and going on strike the railroads should not attempt to discipline them in any way. Mr. Lee said he was confident the misunderstanding would be straightened out before midnight tonight and that those who had left their places would have returned to work by that time.

#### Laborers Almost Incessantly.

The decision late today to postpone the strike for 48 hours was reached only after three of the president's mediators—Secretary of the Interior Lane, Secretary of Labor Wilson and Daniel Willard—had labored almost incessantly since early last night with the four brotherhood chiefs and the conference committee of railroad managers.

Samuel Gompers, president of the American Federation of Labor also was appointed a mediator, did not arrive in this city until tonight, explaining he had been at Atlantic City and did not learn that his presence was desired here until this afternoon.

While it was generally understood that a tentative agreement had been reached, all who participated in the conferences maintained silence until Mr. Lee made his statement tonight. The head of the trainmen's brotherhood intimated that concessions had been made by the railroads that probably would be acceptable to the employees. He declined to outline these simply saying:

"I believe that by Monday we shall reach an agreement which will avert a strike."

Three Considerations Enter. From other sources regarded as authoritative, it was learned however, that three important considerations entered into the negotiations. These were:

Pressure of public opinion against the strike.

The possibility of a decision Monday by the supreme court on the constitutionality of the Adamson eight hour law.

A proposal that the railroads accept the brotherhood's interpretation of the law in the event of its being upheld.

Mr. Lee admitted that the possibility of a decision by the supreme court on Monday had been discussed as well as the interpretation to be placed upon the law by both sides to the controversy in the event of

#### IDENTIFY BODY OF BOMB BLAST VICTIM

**Deepens Mystery Surrounding Boston Explosion**

**Police Now Convinced Second Victim Did Not Place the Bomb—Believe Janitor Was Removing Bomb When He Rumped Into Other Man.**

Boston, March 17.—The positive identification tonight of the second victim of the bomb explosion in the ante-room of the Suffolk county court house yesterday as Daniel Brady of this city and the conclusion of experts that the bomb is identical with one that partly wrecked the harbor police station a few months ago, deepened the mystery surrounding the explosion.

The police theory has been that the hitherto unidentified man had perished by his own bomb and that Louis A. Zeligner, a janitor, had lost his life in trying to take the explosive from the one who carried it.

Tonight however, Police Superintendent Crowley said, that he was convinced Brady did not place the bomb. Witnesses have been found by the police who said an article resembling the infernal machine lay near the ante-room all day yesterday.

Brady was a resident of the Roxbury district and was unmarried. He had been in ill health and out of work for some time. Yesterday morning he left home in search of employment and his family believe entered the court house to listen to a case in which two of his friends were involved. His relatives say he knew nothing about explosives.

The police now are inclined to believe Zeligner found the bomb and was removing it when he bumped into Brady, the bomb dropping to the marble floor and exploding.

Walter L. Wedger, state chemist tonight said the bomb was made with a six inch section of an iron pipe filled with nitro-glycerine.

#### HEAD OF STUDEBAKER CORPORATION DIES

**Vehicle Manufacturer Expires in South Bend, Ind., After an Illness of Two Months**

South Bend, Ind., March 17.—John M. Studebaker, 84 years old, last of the founders of the Studebaker Corporation, died here last night after an illness of two months.

John Mohler Studebaker, Sr., the founder, and, almost to the day of his death, the guiding spirit of the vehicle manufacturing concern that bears his name, constructed his first wagon before he was twenty.

Mr. Studebaker was born near Gettysburg, Pa., Oct. 10, 1833, the son of a blacksmith. He was one of thirteen children. In his youth he moved with the family to Ashland county, Ohio, and later to South Bend, Ind., which city later became the seat of the Studebaker corporation.

As part pay for the privilege of accompanying an expedition across the plains to California in 1853, Studebaker gave the first wagon he ever made. This party set out westward from South Bend with young Studebaker driving the wagon.

On his eightieth birthday anniversary, Oct. 10, 1913 Mr. Studebaker held a reception to his employees at the South Bend plant, and against the advice of his physician, shook hands with each of the 3,000 men.

In his 82nd year he still was chairman of the Studebaker corporation and said he expected to "remain in harness" until he died. He was down at the South Bend plant practically every work-day of the year, arriving there at seven in the morning, two hours ahead of his clerks.

On Jan. 2, 1860 Mr. Studebaker married Mary J. Stull, the daughter of a farmer living near South Bend, Ind. From this union there were born three daughters and John M. Studebaker, Jr.

#### NAMES SIX UMPIRES FOR WESTERN LEAGUE

LINCOLN, Neb., March 17.—President F. C. Zehrung of the Western baseball league tonight announced he had chosen six umpires for this season.

Frank Shannon of Minneapolis and George Miller of Kansas City are the only umpires retained of the 1916 staff.

W. T. Gaston of Ohio, Mike Jacob of Louisville, Ky., John Fillman of Joplin, Mo., and William McGilvray of Denver, are the other four named. Fillman and McGilvray are said to be without experience.

#### TO DISCUSS STRIKE QUESTIONS

Roomington, March 17.—President W. G. Bied of the Chicago & Alton railroad tonight wired superintendents Cornell and Henderson of this city to notify the train and engineers of the Alton to meet with him in a public hall Monday afternoon at one o'clock for a discussion of questions relating to the strike.

#### BRITISH TROOPS MAKE EXTENSIVE ADVANCE

**Enter German Positions on Sixteen Mile Front**

English Sweeping Forward in the Somme and Oise Sectors in France and German Retreat Seems to be Gaining in Momentum

London, March 17.—The British troops have made another extensive advance, entering German positions on a front of about sixteen miles according to the official report from British headquarters in France tonight. On the north the gain reached Bapaume to Monchy-au-Bois, and included the villages of Le Transloy, Achiet-le-Grand, Achiet-le-Petit, Buquoy and others.

On the south the gain included various villages from La Maisonette (South of Peronne) to Fresnoes.

The British and French troops are sweeping forward in the Somme and Oise sectors in France and the German retreat which at first was slow and on narrow fronts, seems to be gaining momentum.

The latest advance by the British was made over a front of fifteen miles and by the French along a front of about fifteen miles and the entente allies have penetrated German positions in this new operation to a depth of from two to four miles.

Bapaume for many months described as a German stronghold now is in the hands of the British troops having been wrested from the Germans after what the British war office describes as stiff fighting. It is a mass of ruins the British official report declaring that public and private buildings were destroyed and everything of value carried away or burned. From Bapaume the fortified lines newly acquired by the British extend to the western outskirts of Monchy-au-Bois from south of Peronne the British have drawn a new line as far as Fresnoes in all they have taken possession of fourteen villages in their advance.

#### FREIGHT EMBARGOES SLIGHTLY MODIFIED

CHICAGO, March 17.—Freight embargoes of Central western railroads were slightly modified today after it became known the strike had been postponed 48 hours. The embargo orders were canceled, railroad officials said as far as possible until Monday. The new orders permit the acceptance of perishable freight which can be delivered on each road's own lines before six p. m., Monday March 19.

Efforts will be made to expedite shipments Sunday.

Livestock for the Chicago, Kansas City and St. Louis packing plants will be hurried into the various stock yards between now and Monday in an effort to furnish meat to the cities affected.

Hale Hodien, president of the Chicago, Burlington & Quincy railroad tonight said that the situation looked "most hopeful."

#### FRENCH CABINET HEADED BY BRIAND RESIGNS

PARIS, March 18.—The French cabinet, headed by Premier Briand, has resigned.

The Briand ministry succeeded the Viviani cabinet in October 1915 and was reorganized last December 12, when the number of ministerial portfolios was decreased and a war council appointed. The war council included Premier Briand, M. Ribot, minister of finance; General Lyautey minister of war; Rear Admiral Lacaze, minister of marine, and M. Thomas, minister of national manufactures.

Attacks by the opposition in parliament resulted on Wednesday in the sudden resignation of General Lyautey as minister of war. The chamber of deputies had held a secret session Wednesday in which French aviation service was discussed.

No specific attack was made on General Lyautey and it was explained that his resignation which he refused to reconsider resulted from his ignorance of parliamentary procedure.

Admiral Lacaze was given the war portfolio temporarily. Premier Briand, a dispatch from Paris on Friday said, had decided to re-construct the cabinet and the resultant ministry was expected to be approved by President Poincare Saturday night.

Aristide Briand was premier during most of 1909, 1910, and 1911 and again for two months in 1913.

#### AUSTRIAN EMPEROR RECEIVES HOLLWEG

LONDON, March 17.—Despatches from Vienna according to the Exchange telegraph company's correspondent at the Hague say that the German chancellor was received this morning by the Austrian emperor and empress at the Laxenburg Castle, near Vienna. Chancellor von Bethmann-Hollweg had a long conference with Emperor Charles jointly with Count Czernin, Austro-Hungarian foreign minister, chiefly with reference to the Russian situation.

Political circles in Vienna, the despatch adds, are considering the possibility of entering into negotiations with the Russian cabinet with a view to an armistice. Emperor Charles is very anxious about the matter.

The German chancellor will leave Vienna Saturday night for Berlin and will immediately visit the German emperor at headquarters.

#### PRESIDENT PLEASED WITH AGREEMENT

**Hopes Further Conference Will Lead to Settlement of Trouble**

WASHINGTON, March 17.—President Wilson tonight telegraphed the representatives of the railroads and their employees meeting in New York expressing pleasure over the agreement to postpone the threatened nation-wide strike until Monday and earnestly urging further conferences to draw the two sides closer together.

#### TELEGRAPHS PRINCIPALS

**Whether Supreme Court will Decide Adamson Law Monday Still Speculative**

WASHINGTON, March 17.—President Wilson tonight telegraphed the representatives of the railroads and their employees meeting in New York expressing pleasure over the agreement to postpone the threatened nation-wide strike until Monday and earnestly urging further conferences to draw the two sides closer together.

#### PLAN TO MOVE TRAFFIC

WASHINGTON, March 17.—President Wilson tonight telegraphed the representatives of the railroads and their employees meeting in New York expressing pleasure over the agreement to postpone the threatened nation-wide strike until Monday and earnestly urging further conferences to draw the two sides closer together.

#### President's Message.

The president's message follows: "I am exceedingly glad that the conferences have been re-opened and that the prospect of a settlement looks brighter."

"I hope most earnestly for the sake of all concerned and most of all for the sake of the nation that the two parties will continue to draw closer together and that a little further conference will lead to the result the entire country hopes for and expects."

The president sent his new appeal after he had received word from Secretary Lane that the negotiations would be continued tomorrow. Mr. Lane did not go into details, but held out hopes for a satisfactory settlement.

Whether the supreme court, on whose course future moves in the controversy may hinge, will deliver an opinion Monday on the Adamson law, remained a subject purely speculative. Before the present situation arose there were indications that a decision might be imminent, but the court's intentions never are authoritatively forecast. Its deliberations in chambers, when a decision will be announced, and what the decision will be, are matters which, by tradition as old as the court itself, never are revealed.

Altho the president kept in close touch during the day and tonight with his mediators in New York, he took no active part in the negotiations and it was said at the white house that no further move on his part was contemplated until the New York conferences were concluded. To officials about him, he expressed pleasure over the postponement, but made no formal comment. He is understood to feel that in appealing to the patriotism of both sides and offering mediation he has done all that is possible for the present.

Decide on no Definite Course. Meantime the government is not losing sight of the critical conditions with which it would be compelled to deal should the mediation finally fail. The president and other officials continued today their consideration of what steps could be taken legally to keep traffic moving in case of a strike, but no definite course of action was decided on.

Attorney General Gregory was one of the officials in closest touch with developments during the day. The immediate concern of his department involves precautions to safeguard such railroads under federal receivership which applied for protection against a strike. Pending developments in New York however, nothing will be done in the cases of the roads which already have made such applications.

Looking up Precedents. The attorney general and his assistants also are devoting considerable attention to precedents establishing what broader action the president could take to prevent a general paralysis of transportation. Up to tonight no conclusions had been announced but the impression still prevailed that should a tieup actually be threatened, Mr. Wilson would find some way to bring the force of the federal government to bear to relieve it.

Steps discussed tonight as possible in case of a strike included the calling out of the National Guard to protect trains carrying mails and food supplies. Whether it would be possible to seek receivership of the roads to enable the government to control and operate them also was under tentative consideration.

Officials emphasized, however, that any decision on these suggestions must be postponed until the result of the New York conference is known. Speculation among officials tonight revealed an opinion about evenly divided on the possibility of

#### MURGUIA LOSES HEAVILY IN BATTLE WITH VILLA

**Foreign Refugee Bring Story of Loss to El Paso**

CARRANZA General Lost 1,200 Men, Six Cannon, Fifteen Machine Guns and Large Quantities of Stores and Ammunition.

El Paso, Texas, March 17.—General Murguia lost approximately 1,200 men in killed, wounded and missing at the battle of Rosario according to a foreign refugee who arrived here tonight from Chihuahua City. Murguia also lost six cannon, fifteen machine guns and large quantities of stores of ammunition, according to this man.

He also reported that when Villa entered Parral Tuesday he ordered two Germans and seven Syrians executed on charges of aiding the government troops.

This foreigner also confirmed the capture of Jimenez.

The Carranza troops according to this account were led by a subordinate in the absence of General Murguia who was in Chihuahua City. They came into contact with Villa's main band at Stallforth, about ten miles north of Rosario, last Saturday.

Villa pretended defeat and retreated to Rosario. The government troops followed and encamped that night a few miles above the town.

Led into a false sense of security by Villa's feigned defeat the government soldiers were lying around their camp Sunday morning when they were caught completely off their guard by a surprise attack.

The men on foot were practically all killed, wounded or captured. The cavalry, however, managed to escape. It was said the entire number of survivors did not exceed 800 out of the 2,000 engaged. They worked their way north from the Durango border on the railway to Parral followed the line on its eastward turn to Jimenez, then northward on the Mexican Central. Villa followed at least as far as Jimenez. Villa's bands were reported to be manning the railway between Chihuahua and Juarez. The people of Chihuahua City, the foreigners included are expecting General Obregon to take over the government before Carranza has well begun his new term.

#### CUMMINS COLLAPSES WHILE SPEAKING

**Iowa Senator is Removed to a Hospital Where it is Announced His Condition is Not Serious.**

New York, March 17.—United States Senator Albert B. Cummins of Iowa was removed to a hospital here this afternoon after he had collapsed during a speech he was making at the Republican club. While he protested he did not need aid, his friends forced him to ride to the hospital.

At the hospital later it was announced that Senator Cummins' condition was not serious. His collapse was attributed to a fainting spell.

S Senator Cummins, one of the "little group of wilful men" mentioned by President Wilson at the close of the recent senate filibuster, alluded today to that situation.

"The charge that ended in a conspiracy to defeat legislation by prolonging the debate on it until expiration of congress is false and was known to be false by those who gave it publicity," he said.

S Senator Cummins said he opposed the legislation solely because it attempted to confer on the president the power to make war.

"My ancestors," he added, "were Americans a full half century before the Liberty Bell proclaimed the independence of the colonies of the new world. I intend to do what little I can to maintain what they helped to create and no storm of censure, criticism or abuse can turn me one hair's breadth from the path of my duty, which no matter how it may appear to others, lies so straight and clear before me that it can neither be mistaken nor misunderstood."

S Senator Cummins alluded to Germany's method of submarine warfare as the last products of the "devil's arsenal."

"Outside of Petrograd not a single shot was fired. All the other cities accepted the new order without resistance and it was warmly welcomed by the people in the army."

The reactionary party has been completely suppressed and the only fear now is that the Moderates will be unable to hold in check the extremists among the revolutionaries."

#### TO MOVE SAILORS TO FORTS

Washington, March 17.—The seven hundred interned German sailors at the Philadelphia navy yard will be moved to Forts McPherson and Oglethorpe, Georgia. The seven-thousand infantry was today ordered from the border to those forts to act as guard. The prisoners and troops will be evenly divided between the two posts.

#### CZAR'S BROTHER ACCEPTS THRONE

**Ascension Conditioned on Consent of the Russian People**

LONDON, March 17.—Grand Duke Michael has accepted the throne of Russia, conditioned on the consent of the Russian people, according to a statement received here today from the semi-official Russian News Agency.

#### RUSS IN PARIS ELATED

**Assert Grand Duke Michael is Real Fried and Protector of People**

Paris, March 17.—The Russian colony in Paris is elated over the probable choice of Grand Duke Michael as successor to Emperor Nicholas. The grand duke is well known here and especially in the Latin quarter where his geniality and simplicity won him the friendship of everyone with whom he came in contact. He was a familiar visitor to the sculptors' studios in the quarter, taking a great interest in the work and encouraging the humblest of the struggling artists.

"He was our friend, a real friend," said one of the artists who knew him, "as he is the real friend and protector of the humblest peasant in Russia."

#### Returns to Headquarters.

Petrograd, March 17.—via London, March 18.—After his abdication, Emperor Nicholas returned to General Staff Headquarters.

The attitude of the armies at the front in the face of the new development is not yet known in Petrograd. It is generally believed that the appointment of Grand Duke Nicholas as commander-in-chief will be received enthusiastically by the troops with whom he is extremely popular.

#### Gives Review of Revolt.

London, March 17.—A review of the Russian revolution forwarded from Petrograd by a diplomatic official says:

"It would be a misconception to believe that the revolt was started by a faction or that it was accompanied by a great amount of bloodshed and disorder. The actual trouble began on Saturday when citizens gathered to protest against the food shortage. These good natured crowds were treated with great brutality by the government police who used machine guns on the people and afterward on the soldiers who opposed them."

"In the first outbreak 300 people were killed or wounded by the police. When the Cossacks were called to aid the police they fraternized with the people."

"On Monday the first guard regiment joined the forces of the provincial government and soon were followed by the entire Petrograd garrison."

"The need for order and discipline at this time was entirely due to the actions of the police and the result was the burning of two police stations and one prison and the ransacking of houses, including the home of Baron Fredericks. Except in cases where the police were caught in the actual commission of murder all the adherents of the reactionary party were imprisoned but not shot."

"The winter palace was strongly held by the police but was captured without losses to the revolutionaries. No violence was offered to any member of the royal family. From the time when the provisional government took control there was no looting, drunkenness or disorder."

"Outside of Petrograd not a single shot was fired. All the other cities accepted the new order without resistance and it was warmly welcomed by the people in the army."

The reactionary party has been completely suppressed and the only fear now is that the Moderates will be unable to hold in check the extremists among the revolutionaries."

### EUROPEAN INTRIGUES

An interesting light upon the situation in Russia comes in the story that the czarina has been practically a prisoner in her chateau near Pétrograd for many months past because she was allied with the group in Russia favorable to separate peace terms. The czarina before her marriage was Princess Alix of Hesse and is a granddaughter of Queen Victoria. When these complicated family relationships among the ruling families in Europe are considered, it is no wonder that there are intrigues, and rumors of intrigues. Nor is there wonder that the people as they find out their own power are beginning to rebel against these ruling families and "the divine rights of kings."

### EFFECTS OF THE U. BLOCKADE

The Chicago Post gives figures to show how necessary is the arming of our merchant ships if U. S. commerce is not to suffer largely thru the German U-boat campaign of ruthlessness.

In January exports reached \$301,939,858. In February they shrank to \$222,360,121. The decrease is \$79,578,967.

These figures are reinforced by the fact that 100 fewer vessels were cleared for foreign ports in February than were cleared in January.

If it were not for the willingness of foreign vessels to venture forth under the protection of guns, the shipping would be vastly more impressive. There is no room to question that the blockade has proved a quite tangible factor in our commerce. The arming of merchant ships is more than an academic question—it is the necessary answer to a "condition, not a theory."

### THE OPENING BUDS

On an opening bud by my window-side.

There's a bonnie bush it grows,  
And its petals all must open wide.  
Ere I see the heart of my rose.

I may not hasten its blooming hour,  
For its beauty I'd behold,  
For the human touch has only power,  
To spoil its heart of gold.

There's a holy purpose in Love's heart.

In the bosom of God it glows,  
That will never yield to human art,  
But 'tis opening like the rose.

I may not hasten this bud of gold  
To open for the eyes of man,  
But one by one its petals unfold,  
The Father's infinite plan.  
—S. A. Hughes.

### USELESS EXPENDITURES

A sample of the extravagance of Democratic methods of doing business is shown in the record of the committee of the District of Columbia appointed to investigate the financial relations between the district and federal government. In its work of investigation the committee expended for salaries of workers over \$40,000. The committee claimed the credit of having returned to the U. S. treasury two and a half million dollars wrongfully withheld by the district, although no detailed report was furnished to congress.

The complaint is not over the returns made by the committee but because of the fact that the U. S. treasury has a complete staff of auditing officers who could have found time to do this work and thus save the expenditure of \$40,000. But then if this plan had been followed certain Democratic members of the house would not have been able to have a number of their friends employed in the special investigating work.

### RAILROAD PEACE ON HORIZON

The cheering news came from Washington last night by authority of the spokesmen for the railway brotherhoods that a strike will be averted. The view taken by the railway managers was not so optimistic, but the managers' tone of doubtfulness will not cast much of a cloud on the situation in the public mind because they will feel that the brotherhood representatives would not have been so unequivocal in their statement that a strike will be averted unless they had good reasons for such a statement.

Perhaps the brotherhoods have had some "tip" that a supreme court decision will be given Monday and will uphold the Adamson law. Anyhow, if this does not eventuate the brotherhoods have it in their power to avert the strike and they certainly know that in the present instance public sentiment would not support them in any hasty ill-timed action. To call a strike at such a time would certainly mean "back fire" of a kind that would eventually mean a loss of prestige and power for the brotherhoods.

### THE HARVEST IS PLENTY AND LABORERS ARE FEW.

Mention is made in another column of a poster received at the Jacksonville postoffice whereby the government makes known its need of thousands of workers in navy yards and arsenals. The wages offered are equal to those paid by private concerns engaged in the same line of work.

The poster is simply a part of a

country wide advertising campaign inaugurated by the government in the effort to procure the help necessary for carrying out a part of the preparedness program. The poster gives point to the need that exists for workers in almost every department of labor and gives an idea, too, of the difficulties which will confront employers during this year. It was only a comparatively few months ago that organizations were being perfected in states, cities and towns to study the question of unemployment and to seek out jobs for the jobless. That condition was all changed by subsequent happenings, the cause in most instances being traced back to the war. Instead of hunting up jobs the endeavor has been changed to that of a search for workers.

It has been noticeable all over the country the past winter, that possibly as never before there has been work for every able-bodied man who really had any desire to work. Conditions are now becoming much more acute and in a community like this it will be felt more by the farmers than any other class of employers. Naturally they are beginning to look forward with some dread to the harvest season and to wonder where the extra labor is coming from. This will be especially true when attractive offers are made by the farmers in the west and the northwest states of very high wages during the harvest time.

Further point is given to this very situation by the offer now being made by the Canadian government. This proposal reduces the residence period necessary on government lands by one year and provides also that men who make entries for land can secure credit of one year's residence by furnishing proof of having worked for some Canadian farmer for a few months period.

### WHAT RUSSIA IS GAINING FROM THE WAR

Any country at war which presents a divided front to the enemy gives evidence of a certain amount of weakness. So from this general proposition Germany may find satisfaction in the upheaval which has just taken place in Russia, resulting in the abdication of the czar and the vesting of governmental authority in a temporary committee of twelve. But a little study of the situation does not prove that there is that beyond the happenings to really justify German satisfaction. If the change of government were of a temporary kind and if strife between the people and the aristocracy were to continue back and forth, with now one class and now the other in ascendancy, Germany would be pleased with the situation. If, however, events show that the change which has taken place is a genuine popular advance and means a growth of the national spirit to such a degree that the old form of government has been permanently swept away, then there is not anything in the situation to be particularly pleasing to Germany. The situation will mean a stronger enemy for Germany to face, a bad example for the German people.

In view of these happenings an article appearing in the current issue of the Outlook, written and printed before the Russian history making events of the past week were made known to the world, speaks with prophetic vision. This article, "Russia's Relation to the War," is presented by the editors of the Outlook as an interview with a Russian official influential in position, familiar by experience with the military, social and industrial policies of Russia.

In this interview the Russian official tells first of the regular organization which has been maintained in Russia by Germany years to spread German influence. The German spy system is highly organized thruout Russia and every preparation had been made in the endeavor to get Russia to sign a separate peace. According to this official the Germans overlooked one thing, and when the fighting was carried from Germany on to Russian soil then the Russian people rose unitedly. It was the invasion of Russian soil that led the czar to take the head of the Russian army, and at that moment the possibility of a separate peace vanished.

The official, in the interview gives the facts to show tremendous advances made by Russia since the early days of the war. At the beginning there was great lack of ammunition and subsequently great plants were built and now supplies are plentiful. The lack of military roads has been supplied and Russia now has a sanitary and hospital organization which exceeds in efficiency that of the other allied nations.

In referring to the growth of national feeling and the development of a spirit certain to result in a change of government, this high official said, in answering the question, "Has the cause of nationalism been retarded or advanced by the war?" "The question you ask me is a difficult one to answer so that a foreigner can understand it. The historical development of Russia and the various political influences in Russia must first be understood. But it may be asserted that the war has in the first place developed a strong national feeling in Russia and out of that national feeling we have grown marked tendencies toward a really responsible ministry.

"Formerly the duma and the council of the empire, which may be called respectively the lower and upper house of the Russian parliament, agreed quite as little as the house of lords and the house of commons agree in England. And their discussions were confined pretty largely to purely legal questions rather than questions of national growth and administration. The fall of Prime Minister Sturmer and the appointment of Trepoff as prime minister were largely published in your American papers. While Tre-

poff was a progressive, he did not hold his office because by the people at large his appointment was looked upon as a continuation of the Sturmer system, and Sturmer represented the old ideas of government and administration in Russia. Trepoff has now been succeeded by Prince Galitzin. Up to the time of the war Prince Galitzin was a thoroughgoing aristocrat. He had held responsible offices, such as governor of a province and senator in the Russian senate, which may perhaps be compared to your supreme court, although it is administrative as well as legal.

"The emperor's proclamation confirming the promise made to the Polish people at the beginning of the war at constitutional freedom in affiliation with or without imperial protection and the emperor's public statement that he desires to see the self-governing organization of Russia continue their effective work at the front, expressed in the first proclamation addressed to Prime Minister Galitzin, indicate, I think, that both the national feeling and progressive ideas of government have had a great impetus from the war."

Certainly the events of the past week have given proof that the Russian official quoted in the Outlook article had a pretty accurate knowledge of happenings in Russia and a thorough understanding of the development of the people's ideals.

### BONE DRY.

In Kansas they have passed a law—the tightest thing you ever saw—which makes you frown if you try to keep on hand a flask of ropy. The jointist trembles in his shoes; if he is found providingboo ze, he takes a journey to the pen, and never will get out again. The man who's found transporting gin is by the bailiffs gathered in; the cadi strips him of his kale, and gives him fifty years in jail. An empty bottle in your hall, a corkless hanging on the wall, is proof that you've defied the law. For you a cell, with molly straw. The man whose breath suggests a drick—four fingers, say, of old red ink—is hunted down with horse and hound, and locked up in the village pound. And if your nose is red, dry man, you'd better bleach it while you can; in Kansas noses must be pale, if people would stay out of jail. Oh where are our God-given rights, since we can't stew ourselves o' nights? Where was the sense in Bunker Hill, if we can't pull a cork at will? And while for a reply I pause, the victuins of these Kansas laws, seem prosperous and happy, too, and ask no sympathy from you.

## THIS DATE IN HISTORY

March 18, 1836—Death of John York Sawyer, editor and proprietor of the Illinois Advocate, Vandalia, Illinois. John York Sawyer was a native of Windsor County, Vermont, and commenced reading law at that place previous to the declaration of war with Great Britain in 1812. In the spring of 1813 he received a commission as ensign in the Thirty-first United States Infantry and served in that and higher grades till the close of the war when he returned to his profession. In the fall of 1816, he came to the then territory of Illinois where he has since resided, having been a judge of the Circuit Court between the years of 1825 and 1827, and held several responsible offices in the state. Was printer to the territory and State publicist.

### YARD CREWS IDLE

Paris, Ill., March 17.—Failing to receive notice of the postponement of the railway strike order employees of the local Big Four yards did not report for duty tonight and the yard crews were idle. Railway officials and members of the Brotherhoods received news of the postponement and it was said that the service would be restored with the next shift.

### LAUNCH BREAKS AWAY IN GALE

Aransas Pass, Texas, March 17.—The Launch Bertha, carrying nine men, broke away from the tug Chief of the Bowers Dredging company Friday night during a northerly gale and is believed to have sunk, according to a report brought here today by the crew of the tug.

### WILL RETURN TO WORK TODAY

Springfield, Ill., March 17.—Baltimore & Ohio trainmen employed in the Springfield yards did not report for work at six o'clock tonight. They had not received the order postponing the general strike. It was said they probably would be at work tomorrow, other roads not affected.

### LAWTON MOORE IMPROVING

Lawton Moore, undergoing treatment in Chicago for wounds inflicted by enraged dogs, is improving, according to word from Dr. Logan, head of the Pasteur institute at the Columbus hospital, 2548 Lake View avenue. Dr. Logan made the statement that the case of the Moore boy was a very serious one, due to the fact that much time was lost before the boy reached the hospital. The general condition of the patient is good.

### DENIES OBREGON IS LEADING MOVEMENT

EL PASO, Texas, March 17.—A statement by Carranza consul Eduardo Soriano Bravo issued tonight denied the charge that General Obregon was leading a new political movement in Mexico and announced that he would continue to serve in the Carranza provisional cabinet until May 1, when Carranza would be inaugurated president and would appoint his cabinet.

Villa partisans here today, while giving credence to the rumor of an Obregon-Carranza break, deny that Villa has any part in the new movement, adding that Villa and Obregon are such bitter enemies that they would never join the same movement.

It was said here today General Obregon was known to be friendly with the Germans in Mexico City and that they had access to his office at all times while he had been minister of war.

### BENEFIT FOR OLD

TIME FIGHTER.  
Boston, Mass., March 16.—Veteran sport followers of Boston and vicinity are arranging a testimonial for "Mysterious Billy" Smith, the old-time star in the welter and middle weight divisions, who is planning to go to Alaska to make his future home. In the heyday of his career, Smith was one of the greatest welterweights that ever donned a pair of gloves. He fought the best men of his class, including Tommy Ryan, Joe Wolcott, Kid McCoy, Jack Bonner, Tommy West, Billy Edwards, and many others, and held his own with all of them. After retiring from the ring some fifteen years ago he took up his residence in Portland, Ore. Recently he returned to New England to renew the acquaintanceships of his early days and to prepare for his trip to the far north.

### WITH THE SICK

L. A. Davis is again at his place with the Lukeman Bros., clothiers, after a spell of sickness.

Mrs. Jennie Clerihan has returned to her home on East Lafayette avenue after a sojourn at Our Savior's hospital.

Mrs. George Tannehill, who has been a patient at Our Savior's hospital returned Saturday to her home in Murrayville.

Mrs. George Bader has recovered from an illness at Our Savior's hospital and returned to her home on South Main street.

W. B. Alford is recovering from an attack of pneumonia at his home northwest of Franklin.

### COLLEGE GIRLS IN DEBATE.

Boston, Mass., March 17.—The training of girls for forensic combat is no longer "as foolish as it looks," since nowadays every girl may aspire to sit among the nation's lawmakers, or as a member of a state legislature or city council, engage in debate on the great problems of the day. With a possible view to qualifying themselves to follow in the footsteps of Jeannette Rankin, the new "congresswoman," students of three of the leading colleges for young women—Vassar, Wellesley and Mount Holyoke—are to engage in a triangular debate tonight. Each institution is to be represented by two teams, one engaging in a contest at home and the other abroad. The subject selected for discussion is the Canadian system of compulsory arbitration of industrial disputes.

### USE THIS

Gilbert's Cream Balm, a great lotion for rough hands.

### EXHIBITION OF MINIATURES.

New York, March 17.—The eighteenth annual exhibition of the American Society of Miniature Painters, under the auspices of the National Academy of Design, was opened today and will be continued until April 22. The exhibition is confined to original miniature paintings which never before have been shown publicly in New York.

### MADE GOOD PROFIT

After all expenses were paid the goodly sum of \$185 was earned for the recent production of "The Chimes of Normandy." This money will be added to the Marcus Kellerman scholarship of the conservatory. Director Kitch said Saturday that the management was greatly gratified over the results of the production.

### HAD BIG SALE

The special sale of 40 cent home made chocolates for 25 cts. advertised yesterday by the Princess Candy Co. was a big success. The people appreciate a real value of this kind and there was a throng of customers in the store.

"The girl who rushes into marriage is a fool. \* \* More young girls lives are ruined by hasty marriage than by any other process."—Thomas Dixon.

Life is built upon realities, not romances; this is the theme of "The Foolish Virgin." Thomas Dixon's famous novel that has been screened as Miss Clara Kimball Young's second Selznick-Pictures offering. The story deals with a young girl whose ideas of life are founded on the romantic works of fiction which she is so fond of reading. She is deceived into marrying a man with criminal tendencies, who, possessed of a lust for money, becomes a burglar. Her efforts to redeem the man she loves led to many intensely dramatic situations with a powerful climax.

## SOCIAL EVENTS

George Brown Given Birthday Party

Members of the Fortnightly Social club met for a pleasant evening Saturday at the home of Mr. and Mrs. George Brown, 936 East State street, observing the 60th birthday anniversary of Mr. Brown. The hours were spent in games. Mr. Brown was tendered a handsome smoking set as a birthday token. J. W. Howe made the talk of presentation. A St. Patrick day effect was secured in the luncheon.

South Side Circle Will Have Anniversary

At the regular meeting of the South Side Circle, entertained by Mrs. Herman Weber at her home on South Main street, plans were made for the celebration of the silver anniversary. The completion of the twenty-fifth year of the circle will be observed with an open meeting Friday, April 13, at the home of Mrs. Ollie Parker.

Lambda Alpha Mu Has Initiation Banquet

The annual initiation banquet of Lambda Alpha Mu society of Illinois Woman's college was held Saturday evening at the Colonial Inn. Miss Fernie Parrott, the President, introduced Miss Maude Strubling, who served as toastmaster, and toasts were given by Misses Lavone Patrick, Gladys Hennerhoff and Cordelia Randolph. Killarney roses, the class emblem, were used in decoration of the tables. After the program the young women gathered for a season of society and college songs.

The new members of Lambda Mu are Misses Lois Bruner, Gladys Hennerhoff, Helen Bishop, Ila Brunnington, Maurine Gifford, Grace Harris, Dorothea Herrmann, Gertrude Hodgins, Muriel Maggee, Mardel Meents, Edna Metz, Alice Miersol and Mary Louise Stuckey.

Phi Nu Society in Charming Banquet

Phi Nu society of Illinois Woman's college held the initiatory banquet last evening at the Peacock Inn. Miss Musa Fellows, the president, introduced Miss Millicent Rowe as toastmistress and she called for the following sentiments:

"To the Land of Gold"—Miss Phyllis Wilkinson.

"Let us gather of the brightness while morn shines on our way"—Miss Bernice Severin.

"Our band shall never be broken, tho' severed by land and sea"—Miss Grace Lees.

On the tables used was made of the rose, the society flower. The Phi Nu song brought a very happy evening to a fitting close.

Following are the active members of Phi Nu society:

## LOWDEN REFUSES TO SUPPORT ALLIANCE

SPRINGFIELD, Ill., March 17.—Governor Frank O. Lowden declined today to lend his support to the suffrage amendment alliance, which is seeking an amendment to the state constitution proposing complete suffrage for women.

To a delegation of the alliance the governor said he was heartily in favor of suffrage but felt that it would be provided in the new constitution of the state to be drafted by a constitutional convention.

Mrs. Fannie M. Worthington of Sterling, led the delegation and urged the Governor's support on the ground that the direct amendment would provide a speedier method of gaining full suffrage than the constitution. The suffrage amendment is still pending in the legislature.

## WEAK FROM GRIPPE

Home Missionary Tells How She Restored Her Strength.

"I am a Home Missionary, was weak and run-down after a hard spell of lagrippe. I had headaches, indigestion and pains in my chest, and was tired all the time. A friend asked me to try Vinol and the result is I am free from those troubles and I feel well and strong and able to go to work again." Mrs. Mattie Johnson, Towanda, Pa.

The reason Vinol was so successful in building up Mrs. Johnson's health is because it is a constitutional remedy which contains beef and cod liver peptones, iron and manganese, phosphates, all combined in a delicious native tonic wine.

We wish every person in Jacksonville who is suffering from a weakened run-down debilitated condition, would try Vinol on our guarantee to return their money if it fails to benefit them.

## AMERICAN SEAMEN STOP IN SWITZERLAND

Leave enroute for Lyons Enroute to United States by Way of Spain, Berne, Switzerland, March 17.

via Paris.—The fifty nine American seamen who were taken to Germany on the prize ship Yarrowdale stopped for lunch in Berne today and left at 3 o'clock in the afternoon for Lyons enroute to the United States by way of Spain. The men were met at the railroad station by Pleasant A. Stovall, the American minister, and the entire legation staff.

Virtually all the members of the American colony and representatives of the French and English legations also greeted the American sailors.

Mrs. Harold McCormick had given each one of the party \$50 not 50 francs as previously reported and some of them had bought little souvenirs while others had invested in suitcases and extra clothing.

The sailors will be accompanied to Barcelona by R. E. Schoenfeld, the American vice-consul at Berne. They will spend several hours in Geneva and will pass the night in Lyons, proceeding tomorrow morning to Barcelona.

THE FARMS OF AMERICA will be called upon as never before to help feed Europe.

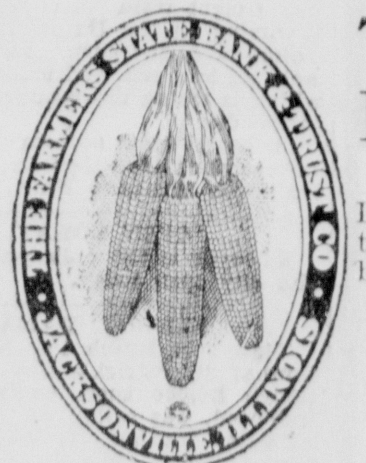

THE DEMAND FOR FARM PRODUCTS will be sure and strong for several years to come. American farms may be pushed to the limit to supply this demand.

PREPARE FOR THE 1915 HARVEST. Careful seed selection, thorough tillage and cultivation and good judgment will bring increased crops. More intensive cultivation, quite as much as increased acreage, will bring farm prosperity.

DIVERSIFY YOUR CROPS. Experience proves that a one-crop country cannot continue permanently prosperous. Raise more live stock. Plant more legumes. Cows, cattle, hogs, poultry, alfalfa, clover and soy beans mean ready money and fat bank accounts as well as more fertile fields.

## PRESIDENT PLEASED WITH AGREEMENT

(Continued from Page 1.)

A decision from the supreme court Monday on the Adamson law. From the fact that attorneys for both sides asked for an early decision and that two decision days when an opinion was expected already have passed, some legal authorities believe it will not again be deferred. On the other hand the well known deep conviction of some of the justices that the nation's greatest tribunal never should be put in the attitude of appearing to act under any sort of duress.

May Withhold Decision. Some close observers of the supreme court procedure believe this latter consideration alone might operate to withhold a decision Monday even if one had been prepared for announcement.

It is one of the court's proudest traditions that it shall never even appear to be acting under any extraneous influence and it is realized some justices might feel that to deliver any opinion in the immediate shadow of a strike might be construed as an act of expediency.

It is known only that the justices believe the broadest legal questions are involved and that any decision must take into consideration problems of the future vastly overshadowing any present exigency. That was made clear when the case was under argument, the justices showing by their questions to counsel that they might resent any attempt to secure any hasty decision.

Today the justices held their usual Saturday conference to prepare opinions. They separated a few minutes before word came from New York that a postponement of the strike had been agreed upon. Their session was followed by a crop of conflicting rumors regarding the prospect of an Adamson law decision Monday but as usual they stood down to merely a speculative basis.

Word of application for protection in the event of a strike filed in the federal courts today by the receivers for the Chicago & Eastern Illinois and the Rock Island Lines was received late today by the department of justice. Attorney General Gregory immediately took up possible steps in the cases, but said tonight that nothing had been done pending developments in New York. The department is expected to co-operate in every way possible for the protection of roads in the hands of receivers.

#### BETHLEHEM STEEL INCOME INCREASES

NEW YORK, March 17.—Net income of the Bethlehem Steel corporation and subsidiaries for 1916 aggregated \$43,593,968, according to the annual statement issued today. This is an increase of \$25,831,155 or 153 per cent over net income of the previous year.

Total income of \$61,717,399 compares with \$24,821,408 in 1915 and surplus of \$38,091,808 after payment of \$4,458,600 in common dividends, compares with only \$16,719,253 in the previous year when no disbursements were made on the common shares.

#### SNOW BLOCKADES RAILROADS

Cheyenne, Wyo., March 17.—Every freight train in southeastern Wyoming on the Union Pacific and Colorado & Southern railroads is held up by a renewed snow blockade which is taxing the resources of the railroads.

A heavy snow accompanied by a severe wind threatens to tie up all traffic on Wyoming lines.

#### OPEN TODAY.

## HOUSTON APPEALS FOR CONSERVATION

WASHINGTON, March 17.—Secretary Houston appealed to the country today to conserve its pulpwood resources as a means of insuring a future supply of newspaper paper. In a statement on the subject he pointed to the present close balance between production and demand in the newspaper industry and to wasteful forestry methods, and urged state forest departments to support re-forestation plans. Some parts of the United States the secretary said virtually have been denuded of forests, the portions of the west and Alaska still offer an immense supply of paper making material.

## EXPECT DIFFICULTIES TO BE ADJUSTED BY MONDAY

(Continued from Page 1.)

at once and I took the first train for New York, arriving here at 8 o'clock tonight.

"I have made ready to be of any possible assistance with my associate mediators in the effort to bring about an honorable adjustment of the problem and I will remain here as long as my associates deem it necessary."

Immediately following the announcement this afternoon that the strike had been postponed the brotherhood chiefs denied themselves to everyone saying they would have no statements to make and that any information concerning the negotiations would have to come from Secretary Lane, later however, Warren S. Stone, head of the engineers said: "The situation is unchanged. As reasonable men we did not wish to fly in the face of the president's advisors and when they requested a postponement of the strike for 48 hours, we made the concession to enable them to work out their plans. Unless something intervenes, the situation will be the same Monday night as it would have been at 7 o'clock."

After the statement several hours later by Mr. Lee an effort was made to see Secretary Lane, but it was said he had retired for the night and did not wish to be disturbed. When the conference ended today he announced he had no statement to make and would have not until tomorrow.

Two Hundred Quit Work. Parkersburg, W. Va., March 17.—Claiming that no order rescinding the strike order which had been issued some days ago, and to go into effect tonight at seven o'clock had been received, members of the four Brotherhoods of Trainmen in the Monongahela and Ohio river division yards of the Baltimore & Ohio railroad quit work tonight. It is estimated that more than two hundred men are out.

The instructions from the brotherhood heads rescinding the strike order were received late tonight while the men were holding a mass meeting and they immediately returned to work.

Eight Hundred Quit. Connellsville, Pa., March 17.—More than 800 members of the four brotherhoods, employees of the Baltimore & Ohio and the Pittsburgh & Lake Erie railroads quit work here at seven o'clock tonight, no order having been received announcing a postponement of the general railroad strike. No trains are being operated out of this city and equipment is being returned to the round houses and shops.

Resume Parlor Car Service. Boston, March 17.—Parlor car service on the New York, New Haven and Hartford railroad withdrawn when a railroad strike appeared imminent was restored late today on notification from New York that the strike had been postponed. All thru trains to New York tonight carried their usual number of parlor cars.

Will Continue Embargo. St. Louis, Mo., March 17.—The freight embargo declared by the terminal railroad association because of the threatened railway strike will continue thru Sunday and Monday, it was announced this afternoon after word was received from New York that the strike had been postponed.

Mr. and Mrs. William Hall of White Hall were in the city Saturday to see their son, Arthur Hall, a patient at Our Savior's hospital.

MOTHER! YOUR CHILD IS CROSS, FEVERISH FROM CONSTIPATION

If Tongue is Coated, Breath Bad, Stomach Sour, Clean Liver and Bowels.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out of sorts, half-sick, isn't resting, eating and acting natural—look, mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."—Adv.

## U. C. T. CONVENTION MAY COME TO CITY

Jacksonville Council Delegates Prepared to Ask for Meeting—Annual Election Held.

At the regular meeting of Jacksonville Council No. 182, U. C. T., held Saturday evening, officers were elected and plans were discussed for sending the degree team to the Peoria convocation next May. There is some talk of securing the 1918 convention for Jacksonville, a city which has not entertained the order for almost ten years. Harry B. Myers, a resident of this city for the past three weeks since taking a traveling position with a St. Louis firm, gave a talk on the constitution of the United Commercial Travelers.

Following are the officers: Senior Councilor—V. L. Lavery. Past Councilor—L. H. Krause. Junior Councilor—C. H. Phillos. Secretary—W. S. Ehnie. Conductor—J. C. Jensen. Page—J. W. Van Valzah. Sentinel—Charles Rousey.

Members of the executive committee—George T. McKee and Thomas Cannon, re-elected, and Harry Lavery. Grand council delegates—George Haigh, L. H. Krause and V. L. Lavery.

Mr. Freeman, salesman for the Jacksonville Monument Co., was voted into membership. Mr. Johnson of the Douglas Hotel was received by transfer.

Incubators, the very best in both hot water and hot air—also brooders, chicken houses, all kinds chicken waterers, poultry netting, poultry fence. Brady Bros.

## MEDICAL CLUB MEETS WITH DR. DUNCAN.

The Medical club held a profitable meeting Saturday evening at the home of Dr. W. P. Duncan on East State street. After the program an enjoyable St. Patrick's day luncheon was served by Mrs. Duncan. Drs. J. A. Ogden, E. L. Crouch and W. H. Weirich were voted into membership. Drs. H. A. Chapin and A. H. Dollar were constituted visiting members.

Dr. T. O. Hardesty read a paper on "Kidney Stones." Dr. G. H. Stacy introduced a general discussion.

## THOUSANDS OF MULES.

Five thousand long-eared, care-free mules are having the time of their lives at the National Stockyards, East St. Louis. The pens of the mule barn contain troughs filled with grain and racks of hay. As soon as the railroad strike situation clears they will be shipped to the Middle West and plantations of the South for a far different existence.

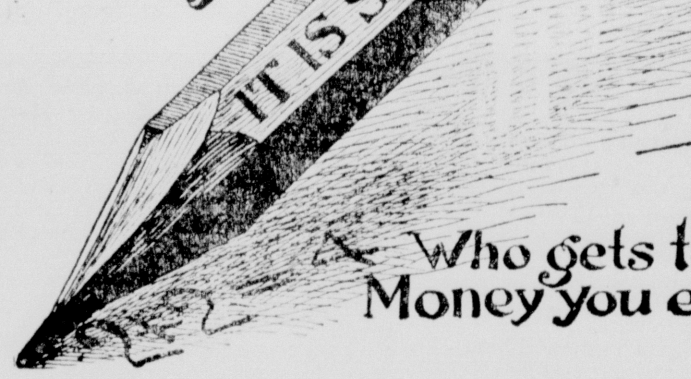

C. S. Maddox, vice president of the Campbell & Reid company, said yesterday it would cost about \$2000 a day to care for them. He also said that, as usual, few horses were on hand. It is the custom to close out nearly all the horses by Friday and shippers are not planning to send more until the railroad conditions return to normal.

"If it is necessary we can use the river to get mules to Southern plantations," said Maddox, "and in case of a real need for mules they can be driven thirty miles a day in droves, with a bell mare leading the way."—St. Louis Globe.

## REPORTS ON CASUALTIES IN ILLINOIS GUARD

SPRINGFIELD, Ill., March 17.—Out of 10,321 officers and men mustered into the United States service in the Illinois volunteer commands and sent to the Mexican border only four died, said Dr. Herman J. Tuttle, recently mustered out as major and surgeon of the Fourth Illinois infantry today. Dr. Tuttle said 1,993 men failed to pass examination.

The man with money figured. He figured on Banking some of his earnings. Now he has money.

Who gets the Money you earn?

All of the rich men you see so comfortable today, figured when they were younger that they MUST HAVE MONEY in the bank to start into any kind of business. So they started a bank account.

You know the rest. That bank account grew into a FORTUNE.

It can be just the same with you. There's no luck about it.

Put YOUR money in OUR bank.

"SPY OF GETTYSBURG"  
ATTRACTS BIG NUMBER

Young People of Sacred Heart Parish, Franklin, Present Clever Play—The Cast of Characters

"The Spy of Gettysburg," presented Saturday evening in Marquette hall by young people of Sacred Heart parish, was one of the best entertainments of its kind ever given in Franklin. The cast was trained well and each of the four acts held the best attention of each member of the large audience present.

The play was preceded by a half-hour of vocal music. Numbers were given by John Boyle and Misses Anna and Katie Quinn of Springfield, and Miss Genevieve Dwyer of Virden.

The story was begun with a scene near Gettysburg in '61 before the storms of war had come. The second act began with a scene on the eve of the battle and the third act had to do with events immediately after the battle. A speedy flight and a desperate personal encounter precedes a very happy ending.

Following is the cast of characters: General Meade, commanding the Army of the Potomac—Frank J. Ryan.

Harry Lenox, a Federal scout—Dennis Whalen.

Major Timothy Tapley, an eccentric member of Lee's army—Charles Ryan.

Uncle Moses Mulvey, a relic of the Mexican War—Harry Walsh.

Cyril Blackburn, the black sheep of a Noble Virginia family—Richard Whalen.

Solomon, an independent "coon"—James Seaver.

Capt. Warren, a Federal staff officer—Carl Bergschneider.

Jenison, a willing tool of Blackburn's—Paul Haire.

Mabel Meredith, a true-hearted girl—Miss Sadye Murphy.

Lottie Evans, her cousin, full of mischief—Miss Catherine Johnson.

Mrs. Moses Mulvey, with a mind of her own—Miss Mary Kennedy.

Garden hoes, rakes, spades, spading forks, garden plows, cultivators—the best goods made. Brady Bros.

## FUNERALS

## Menge

Funeral services for William Menge were held Saturday afternoon at 1:30 o'clock at the residence of the deceased, four and one-half miles northeast of Arenzville, Rev. Mr. Gorton, pastor of St. Peter's Lutheran church officiating. The music was furnished by Eugene Peck, Edward Peck, Alex. Huffman, Mrs. Harry Schafer and Miss Marie Paschall. The flowers were cared for by Mrs. Fred Fricke and Mrs. Walter Korte.

Burial was made in Arenzville cemetery, the bearers being Stephen Davis, Edward Biggs, Henry J. Ruppel, William Meyer and Henry Kircher.

Death came to Mr. Menge at his home Thursday morning at 7:30. A short time before he had suffered a paralytic stroke. Mr. Menge spent his life near Arenzville and was one of the most highly respected citizens of his home community. He leaves one daughter, Mrs. Bert Long, near Markham and two sons, Frank Menge at home, and William Menge of Joy Prairie. Two sons, John and Henry Menge preceded the father in death and Mrs. Menge passed away in 1912. Two sisters survive Mr. Menge, Christina, wife of H. H. Krohn of Bluff Springs, and Amelia, wife of Henry Tritsch of Arenzville.

## Finney

GOVERNMENT NEEDS  
MANY WORKERS

Offers Good Pay For Employees in Navy Yards and at Arsenals.

Jacksonville postoffice, along with other postoffices thruout the country, has received a poster setting forth the Government positions open to mechanics and helpers. Because of greatly increased work of construction being carried on by the government there will be necessarily a large increase in the number of employees at navy yards and ordnance establishments. The poster gives the numbers needed at the different yards and plants, together with the kind of work and the pay offered. Hundreds of positions are open and the pay is similar to that offered for like work by private concerns. The idea prevails in some cases that the government pays mechanics and helpers somewhat on the same scale as army privates, but this is by no means true.

Applications from this part of the country should be made to the federal civil service board in Chicago. Positions are open in Philadelphia, Dover, N. Y.; Watertown, Mass.; Watervliet, N. Y.; Boston, Mass.; Norfolk, Va.; Washington, D. C. The poster can be seen at the postoffice if any further information is desired.

### RECEPTION FOR MEMBERS OF ST. PATRICK'S CHURCH

Annual Event Held at Bluffs Saturday Well Attended—Juniors and Seniors of High School Entertained—Bluffs News Items.

Bluffs, March 17.—The ladies of the M. E. church held a country kitchen at Burrus store building Saturday.

Mrs. Elba Gray held her opening of spring millinery Saturday. Each visitor was presented with a souvenir.

Miss Margaret Finney spent Saturday with friends in Springfield.

The Freshmen and Sophomores of the high school entertained for the Juniors and Seniors at the high school building Saturday night. Music and games were the evening's chief amusement after which a dainty two course luncheon was served. About forty five were present.

The annual reception for the members of the church of St. Patrick, was held at the home of Mrs. Thomas O'Brien Saturday. About fifty were present. The following out of town guests were in attendance: Father McKeogh, Mt. Sterling; Miss Julia O'Brien, Jacksonville; Mrs. Mary Elvidge, Chambersburg; Mrs. John Carnes, Pittsfield; Ed Comerford and family of Naples; Mrs. Hal Kendall, Beardstown, and Mrs. Richard Vortman of Neeleys.

This annual festivity is eagerly looked forward to from year to year. The final close will be a ball at the opera house Saturday evening and many out of town guests are expected to be present.

Mrs. Myers and children left Saturday for a few days' visit with friends in Springfield.

Dr. H. L. Day is confined to his home by an attack of tonsillitis.

### MONUMENT ASSOCIATION HELD SESSION SATURDAY

Dr. Rammelkamp Chosen Secretary to Succeed Late Hassell Hopper

The Morgan County Monument Association met at the court house Saturday morning, with President C. B. McDougall in the chair. Several men appeared before the meeting, presenting suggestions regarding monuments. Dr. C. H. Rammelkamp was chosen secretary to succeed the late Hassell Hopper. The following resolutions were adopted unanimously:

Whereas, one of our members has been called by death to join his comrades above, therefore, Resolved, that the members of this Association feel greatly the loss of our very efficient secretary and comrade Hassell Hopper, who while health remained was ever ready for duty and always willing to do his part and work.

We appreciate fully the good work which he did just before his death in tabulating the names of the Morgan county soldiers, a task that required much labor. Hassell Hopper need no eulogy from us, and we are proud to have had him as our secretary.

Resolved, that a copy of this resolution be sent to the family of Mr. Hopper and furnished to the public press.

C. E. McDougall, Chairman,  
C. H. Rammelkamp, Sec.

### LATE JOHN CAMPBELL REACHED GREAT AGE

McDonough County Man Well Known Here Lived More Than One Hundred Years

Mention was made recently of the death of John S. Campbell of McDonough county, an uncle of Mrs. Charles W. Boston, of this city. At the time of Mr. Campbell's death he had reached the great age of 100 years and 3 months. The following obituary notice is taken from the Macomb Journal:

"John S. Campbell, the oldest citizen in McDonough county, died at the home of his daughter, Mrs. Malinda Tucker, 430 East Murray street, Macomb, at 10:20 o'clock Monday forenoon, aged one hundred years and three months. At his bedside when the end came were three of his children, Mrs. Tucker named above, Mrs. C. A. Morey of Good Hope, this county; and A. B. Campbell of Macomb and the Soldier's home, Quincy.

"Funeral services were conducted by Rev. W. T. Reynolds at the Jackson street Presbyterian church at 10 o'clock Wednesday, March 7. Interment at Hickory Grove cemetery, 3 miles north and two east of Good Hope in Walnut Grove township, where he settled, as a pioneer, and where his wife was buried 45 years ago.

"John S. Campbell was not only the oldest citizen in McDonough county but was also one of the earliest settlers in this county. He came from the state of Tennessee with his parents in 1830, who settled in Walnut Grove township and lived here continuously since with the exception of a brief residence in Charleston, Iowa. He was married to Nancy V. Bridges of Industry township in 1840, whose death occurred in 1875. To this union ten children were born, viz: James B., Malinda M., John C., Alexander B., William L., David U., Mary, Joseph T., Robert D., and Edward B., seven of whom survive.

"From early manhood he was a devout member of the Cumberland Presbyterian church, and while never prominent in politics he was a ardent supporter of Abraham Lincoln, whose untimely and violent death he sincerely lamented.

"He was a farmer by occupation, and by energy and industry acquired a competency for old age. He was a charitable and generous with his means, giving liberally to the support of worthy objects. He was respected and loved by those who knew him, was a kind and faithful husband and father, dying as he had lived, in the hope of a blessed immortality."

### CIRCUIT COURT SUIT FILED.

In the office of C. W. Boston, circuit clerk, Saturday J. O. Priest filed a bill in chancery in behalf of the Jacksonville Plumbing Co., directed against George Chambers et al., for the sum of \$132.10. The claim, it is said, is for plumbing work done at the Chambers home on West College street. John N. Deatherage and George F. Brown, partners doing business as the Jacksonville Plumbing and Heating Co., brought the suit against George Chambers, Annette Chambers, Alden Brown, E. W. Crawford, W. A. Crawford, John Baptist, Charles W. Simms, F. J. Andrews and Dr. A. M. King. The defendants other than Mr. and Mrs. Chambers are named simply because they are creditors of Mr. and Mrs. Chambers.

### HISTORIC ILLINOIS TO BE DR. RAMMELKAMP'S THEME

An illustrated lecture is to be given at Academy Hall Tuesday evening, March 20, at 8 o'clock, to which all alumni and former students of Illinois college, Whipple academy and Illinois conservatory of music are invited. The lecture is to be delivered by President C. H. Rammelkamp upon the theme, "Historic Illinois." President Rammelkamp has delivered this lecture before alumni societies of Chicago, New York City, Springfield and St. Louis, and those who have heard it are unanimous in the opinion that the alumni and former students have an evening of rare pleasure before them.

The program will include a number of excellent musical numbers and following the lecture will come a social hour with light refreshments.

Garden seed, garden tools, incubators, brooders, chicken houses, chicken waterers, poultry netting and poultry fence. Everything the best. Brady Bros.

### FUNERAL NOTICES

The funeral of Mrs. Hannah Shreve will be held Monday afternoon at 2 o'clock at First Baptist church. The service was announced for Sunday afternoon but a telegram from W. H. Shreve, on the way from Santa Monica, Cal., told of a delay in traffic which would not allow arrival here Sunday. Mr. Shreve will reach Jacksonville Monday morning.

The funeral of Charles Wayne, postponed on account of the non-arrival of a son from Montana, will be held this afternoon at 2 o'clock at Franklin Methodist church. Burial will be held in Franklin cemetery. George Wayne reached Franklin Saturday morning.

### WILL HOLD ANNIVERSARY

At a meeting of the South Side circle held Friday afternoon it was decided to celebrate the 25th anniversary of the founding of the circle on Friday, April 13. The meeting will be held at the home of Mrs. Ollie Parker, 206 West College street.

A. L. TAYLOR, District Manager  
Telephone, Main 250MANY CHANGES IN  
ALTON TIME CARDNEW SCHEDULE BECOMES EF-  
FECTIVE NEXT SUNDAY.Evening Train from St. Louis Will  
Arrive in Jacksonville at 7:35 In-  
stead of 8:50—Chicago "Hum-  
mer" Will Leave 30 Minutes Lat-  
ter than Usual at 2:22 a. m.Effective Sunday, March 25th, the  
Chicago and Alton Railroad company  
will put an entirely new time card  
into service. There are several  
changes in the new card which will  
make a difference with Jacksonville  
travelers. Among these are the  
change of the Chicago "Hummer,"  
which has been leaving this city for  
the windy metropolis at 1:58 a. m.  
This train will leave at 2:22 a. m.  
beginning with next Sunday morn-  
ing. The train which has been ar-  
riving here from St. Louis at 8:50 p.  
m. will arrive under the new schedule  
at 7:35 p. m., leaving St. Louis an  
hour earlier.Train Numbers Changed.  
A number of the train numbers  
have been changed. Trains Nos.  
14 and 15, at present Trains Nos. 15  
and 16 will be operated solidly be-  
tween Bloomington and St. Louis,  
that is there will be no change  
made in the trains at Roodhouse.  
Train No. 15 will make connections  
with Train No. 25 at Roodhouse for  
Kansas City. Train No. 16 will not  
receive connections from west divi-  
sion points at Roodhouse. Train  
No. 18 will receive west division con-  
nections from Kansas City at Rood-  
house. Train No. 11 will leave Chi-  
cago at 11 o'clock p. m. and will  
reach Jacksonville at 4:12 a. m. in-  
stead of 3:23 a. m. as at present.  
This train arrives in Kansas City at  
12:30 noon. No. 11 is one of the  
Alton's latest trains making the  
distance between Chicago and this  
city in five hours and twelve min-  
utes. The "Hummer" Train No. 10  
will make additional stops begin-  
ning next week and will hereafter  
pick up passengers at Vandalla,  
Bowling Green, Higbee, Armstrong,  
and Gilliam, all Missouri points.  
Train No. 32 will make connection  
with Trains 23 and 53 at San Jose  
for Springfield and Peoria and also  
connections at Bloomington with the  
Alton Limited for Chicago.The Alton Limited is due in  
Bloomington at 2:45 p. m. and this  
change of service on train 32 leaving  
here at 11:25 a. m. will enable Jack-  
sonville travelers to reach Chicago,  
via the Limited, at about six o'clock  
in the evening.Afternoon service to Chicago.  
The change which will most affect  
the express travel and create differ-  
ent arrangements for transfer are  
the operation of the day trains be-  
tween St. Louis and Kansas City  
instead of Bloomington and Kansas  
City and the day trains between  
Bloomington and St. Louis via Rood-  
house, the train from Bloomington  
leaving for St. Louis at noon as No.  
14.Train No. 18 which on the pres-  
ent card is known as Train No. 30  
leaves St. Louis for Jacksonville one  
hour earlier than the present card  
and receives connection from Train  
26 (formerly No. 16) enroute from  
Kansas City at Roodhouse, for Jack-  
sonville only. Train No. 71 leaves  
Chicago about 2:15 in the afternoon,  
arriving in this city at 9:50 p. m.  
Train No. 33 leaves Chicago about  
9:30 a. m. arriving here at 4:50  
p. m., thirty five minutes later than  
at present.Train No. 32, which leaves here  
at 11:25 a. m. and reaches Bloom-  
ington at 2:45 p. m., lays over in  
the latter city until 5:30 p. m. when  
it continues to Chicago as Train 78,  
arriving at Chicago at 9:20 p. m.  
Train No. 33 will be run, Chicago  
to Roodhouse, connecting with train  
of same number (33) Roodhouse to  
St. Louis on route from Kansas City  
as Train No. 26. Train No. 32 will  
receive at Roodhouse a connection  
from train of same number St. Louis  
to Roodhouse enroute to Kansas  
City as Train No. 25.The following is the Alton time  
card which will be effective begin-  
ning March 25th.

ISSUE BEFORE ASSEMBLYConflicting Views on Adoption of  
Resolution for Constitutional Con-  
vention—Final Vote on Wednes-  
day.Springfield, Ill., March 17.—Ef-  
fect on the statewide prohibition  
referendum plan of the adoption by  
the Illinois legislature of a resolu-  
tion proposing a constitutional con-  
vention was the subject today of  
conflicting views among wet and  
dry members of the lower house of  
the assembly. The prohibition  
measure comes up for final vote in  
the house on Wednesday, March 28.  
It has passed the senate."Dry" leaders contend that adop-  
tion of the convention plan indicated  
there is sufficient sentiment for put-  
ting important questions up to a  
referendum of the people to assure  
success of the prohibition bill, which  
also puts the question up to the  
voters. "Wets" on the other hand,  
contend that the constitutional  
convention would be the place to  
fight out the prohibition scheme  
and that any action on it before the  
convention would be superfluous."Our view is that it would be an  
excellent thing to get prohibition out  
of the way before the convention,  
in order that the constitution fram-  
ers will be relieved of any such con-  
troversial subject," F. Scott Mc-  
Bride, superintendent of the anti-  
saloon league of the state declared.  
Mr. McBride said he was confident  
of polling more than the required  
77 votes in the house.With this constitutional conven-  
tion and Lowden consolidation bill  
successfully out of the way, the wet  
and dry fight looms up as the one big  
measure yet to be decided upon by  
the legislature. A number of other  
measures, of considerable import-  
ance, are, however, to be acted upon  
and assuamly leaders see little  
chance of sine die adjournment be-  
fore June 1.The house will act upon three civ-  
il service bills on Thursday of next  
week. A hard fight is scheduled on  
the measure extending civil service  
in Cook county.Tuesday has been set as the day  
for action on the bar association  
bills proposing simplification of law  
procedure. Their opponents in the  
house contend they would deprive  
persons of the right of jury trials  
in some instances.Seed tape, all kinds. Also  
complete stock of fresh bulk  
seed. Buy your onion sets here  
and get the best. Also big line  
bean seed. Everything the best

manager of the Border Transporta-  
tion company held in connection  
with the fatal shooting of Miss  
Mabel Howe, a maid in the Ercken-  
brack home, was released today by  
the police. When taken to jail Er-  
ckenbrack said the young woman had  
shot herself because he had repri-  
manded her for misconduct with an-  
other man during a party last night  
at the Erckenbrack home. Ercken-  
brack said his wife was not at home  
at the time and that after the guests  
had departed he lectured Miss Howe  
because he had seen her embraced  
by one of the guests. The girl be-  
came excited, Erckenbrack said and  
shot herself with his revolver. The  
police said Erckenbrack's story  
agreed with the details as deter-  
mined by their investigation.Fresh garden seed in bulk—

## WILLARD W. C. T. U. NOTES

The Tide Rolls In  
The prohibition tide comes on. It's rolling in. It's rolling in. The liquor dealers must be gone. They see with the tide roll in. The liquor dealers take their stand. And vow to drive us from the land. But soon we'll drown their noise and din.  
The prohibition tide rolls in. The Northern states long heard the roar.  
Of prohibition on their shore; And then the tide so grandly came. Before the ebb the nation to claim. And now we want this mighty tide. Of prohibition known world-wide. To lap our state, that we may cry: "Old Illinois too has gone dry!"

"It is a great mistake to think that the drinking of spirits refreshes the system when weak or overcome with fatigue; the immediate effect, is stimulating, but in an hour after one feels more exhausted than before."

Nevada is making rapid strides toward becoming a dry state. Texas, in spite of discouragements, is again to test forces with the foes of temperance. Persistence for the right is sure to win in the end.

Prohibition measures passed by the 47th congress and signed by President Wilson. 1. Alaska Prohibition bill; 2. Porto Rican citizenship bill; containing a provision for prohibition, with a referendum if desired; 3. District of Columbia bill, prohibiting the manufacture or sale of alcoholic beverages in the district; 4. Post Office bill amendment, prohibiting the use of the mails for liquor advertising purposes, and also prohibiting the shipment of alcoholic liquors into dry states or territories.

Russia is "bone dry" to the extent that not even beer or mild wines can be obtained. "In spite of the war, with every available man at the front, our bank deposits have about doubled in less than three years, the amount accumulated in twenty three years previous to the outbreak of the war. Abolition of alcoholic liquors—a "bone dry" regime—has brought about this wonderful prosperity."—Inspector of State Saving Bank of Russia.

An ex-publicity manager of the National Wholesale Liquor Dealers' association of America, but now an earnest Christian worker, gives the following good reasons why the days of the liquor traffic are numbered.

1. There are no volunteers in the wet camp; all who work for that cause must be paid well.
2. There is a general lack of enthusiasm on the part of many in the business.
3. The evidence to be found of the evil results of the use of alcohol.

I WAS wedged in  
LIKE A sardine on my  
WAY HOME last night  
BUT THE woman just ahead  
OF ME was well groomed,  
AND THE very sight of her  
HAD RESTED my tired nerves.  
SHE HAD a little girl  
BESIDE HER and when the L. G.  
CALLED HER "Grandma"

I ALMOST fainted. I  
BELIEVE YET that it was  
A PET name because she  
LOOKED SO young.  
IF SHE does not use  
NEWBRO'S HERPICIDE  
I AM a poor guesser.

Yours for beautiful hair,  
*Herpicide Mary*

## EXPULSED—every poison and impurity

of your blood, by Dr. Pierce's Golden Medical Discovery. Then there's a clear skin and a clean system. Pimples, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Enlarged Glands, Swellings, and all Blood and Skin Disorders, from a common blotch or eruption to scrofula, are benefited by it.

In building up needed flesh and strength of pale, puny, scrofulous children, nothing can equal it. In liquid or tablet form.

## FOR GOOD HEALTH AND LONG LIFE

Do not eat meat more than once a day. Drink plenty of pure water, exercise outdoors, and take a pleasant laxative at least once a week. Such a one is made of May-apple, root of jalap, juice of aloes, sugar-coated, and first made up and sold as Dr. Pierce's Pleasant Pellets—nearly fifty years ago.

## Old Looks?

(BY DR. L. H. SMITH)

Persons suffering from too much uric acid in the system frequently look older than they should. They age faster and the appearance of gray hair or baldhead in early years is, indeed, often a sign of uric acid. The face appears lean and haggard, lines and wrinkles appearing in young men or women.

The best way to combat this premature age and the obstruction to the arteries and faulty circulation is of the simplest: Drink copiously of pure water between meals. This will not make you fat, as it is only the water taken with the meals that fattens. Obtain at any drug store a small package of Anuric, which is to be taken before meals, in order to expel the uric acid from the system. The painful effects of backache, lumbago, rheumatism, gout, due to uric acid in the blood should quickly disappear after treatment with Anuric.

## holio beverages is becoming greater every day

4. The argument of efficiency, which has been so rapidly developed in late years by industry.
5. The moving picture portrayal of scenes showing drunkenness and its results.
6. The press of the United States.
7. The action of a number of European countries that have adopted dry measures.
8. The organized church sentiment against the traffic.
9. The fact that the best type of men in the liquor business are withdrawing their capital and investing in other enterprises.
10. The increased taxation, cost of operation, and cost of campaigns.
11. The general insecurity of the traffic due to constant attacks, and an ever increasing number of victories on the part of the dry forces.
12. The knowledge that strict obedience to regulatory laws, including sales to minors, closing hours and sales to drunks would practically mean the elimination of profit.

March the 1st is indeed a W. C. T. U. red letter day. Not only is it the birthday of our late loved leader Mrs. L. M. Stevens, but it has been a memorable date for prohibition victories. On March 1st, 1912, the Webb-Kenyon bill was passed by the House over President Taft's veto, and March 1st, 1917, marked the passage of the District of Columbia prohibition bill.

Getting ahead of Uncle Sam. The state of Kansas had no intention of trailing Uncle Sam on the "bone dry" proposition, hence she enacted her law just three hours before congress puts its measure thru. Hurrah for Kansas!

While the saloons of Michigan were debating the problem of just how much booze a man ought to be allowed to bring into a dry state congress settled the question at one stroke, not only banning "bone dryness" to Michigan but to a score of other states as well. "Rah for Uncle Sam!"

The petition filed to make Springfield dry is headed by Ex-Governor Yates, Congressman Caldwell and Sheriff Wheeler, followed by a long list of professional and business men and women. 3,500 names were required, 5,917 were obtained. Outward dry petitioners numbered 365.

The Board of Directors of the Dry Chicago Federation has designated Sunday March 18 as Dry Chicago day. Captain Richmond P. Hobson has been retained by this organization to hold a series of meetings in April, to be followed by four months of open air educational work along the same line.

Mrs. Minnie C. Brubaker, Press Supt.

## COLLEGE OF MUSIC

Miss Edith Hillerby's senior recital in organ took place on Monday evening, March 12. The severe storm which visited Jacksonville at that time, prevented as large an attendance as otherwise might have been present, but those gathered were amply repaid for their trouble. Miss Hillerby has a good command of the complicated instrument which she has chosen as her medium and plays with taste, clear rhythm and good technique. Her work was enthusiastically received.

On Thursday afternoon, March 15, occurred the regular weekly recital in the College of Music, the recital being given by piano students of the intermediate grade. The program passed off smoothly and all admitted themselves easily. The following is the program in detail: Skylark's Morning Song, Koelling; Mabelle Rector; Berceuse, Delbruck; Ennie Williamson; Gondolied, Haberber; Starr Boston; C minor Prelude, Chopin; Dorothy Towle; Dance Bizarre, Fontaine; John Kirkpatrick; Tarantelle in A flat, Heller; Traumerei, Schumann; Clara Smith.

Mr. Stearns annual piano recital will take place on Wednesday evening, March 21, at 8:15. The program comprises selections by Greig, Chopin, MacDowell and Debussy. All are cordially invited to attend. The appearance of Miss Rena M. Lazelle of the College of Music faculty in the Elk's Jollies was one of the hits of the performance. She was recalled many times and forced to respond to encores.

Monday morning Mr. Stearns goes to Springfield to attend the conference called by the State Superintendent of Education, Blair, on the subject of granting credits for music in the secondary schools of the state.

## CONSERVATORY NOTES

The Illinois College Chorus will meet Thursday evening, March 22, instead of Monday evening, the usual time. After the rehearsal, a social hour will be spent.

At the meeting of the Illinois college Alumni next Tuesday evening, March 20, in Recital Hall, excerpts from the opera "The Chimes of Normandy" will be sung by the soloists who took part in the performance on March 9th.

Miss Helen Morgan sang for the Parent Teachers' association at the Third Ward school last Tuesday, March 13th. Miss Edna Hackett will sing for their meeting at the Second Ward school Tuesday.

Mr. Clarence Ratcliffe, whose business called him East, sang at an informal musicale in Buffalo last week, and has the offer of a position in a church choir Male Quartet in that city, at a fine salary.

Mr. Kritch will be Monday, to attend a meeting of the State Examining board, who will discuss the subject of Teachers' Certificates in Music.

Miss Hazel Ashbaugh played some violin solos at the meeting of the Parent Teachers' association in Waverly last Thursday.

The students' recital given last Friday afternoon in Recital Hall was well attended and passed off creditably; the following was the program:

Miss Bird Harmon is visiting friends in Franklin over Sunday.

## SPRAINS! RUB PAINS AND SWELLING AWAY

Don't Suffer. Go About Your Duties—Relief Comes the Moment you Apply "St. Jacobs Oil."

Don't stay crippled! Rub this soothing, penetrating oil right into the sprain, ache or strain, and out comes pain, soreness, stiffness and swelling.

Nothing else penetrates, heals and strengthens the injured muscles, nerves, tendons and ligaments so promptly. It doesn't burn or discolor the skin and can not cause injury. Don't suffer! Get a small trial bottle from any drug store now—limber up! Rub the misery right out. A moment after "St. Jacobs Oil" is applied you can not feel the slightest pain or soreness, and you can go about your regular duties.

"St. Jacobs Oil" conquers pain. It has been used effectively for sprains, strains, soreness and stiffness for 60 years—six gold medal awards.—Adv.

## ILLINOIS COLLEGE NOTES

Plans have been completed for the meeting of the Alumni at Academy Hall, Tuesday evening, March 20th. As previously announced, Alumni and former students of the college, and also the Alumnae of the Academy, Conservatory and Athenaeum are cordially invited to be present. All who intend to go should notify Dr. A. R. Gregory, the Secretary, not later than Monday afternoon.

The new college catalog has just come from the press, and was distributed to the students Friday morning. The catalog is somewhat larger than previous issues.

The girls of the College are at work on a group of plays which are to be given in the near future for the benefit of the Woman's building.

President Rammelkamp will attend the meeting of the North Central association in St. Louis, at the end of the week.

The devotional meeting at Academy Hall Sunday evening will be led by Miss Edith Epler. The subject will be "Spreading the Good News."

The State Fire Marshal, or his assistant, will speak to the students of the College at the Chapel exercises Thursday morning.

The girls of the College have been very busy during the past week selling tickets for the moving pictures to be shown at the Opera House Monday, March 19th. Mrs. Fiske, in Vanity Fair, will doubtless be seen with pleasure by the many friends who plan to attend. The proceeds are to be used for the benefit of the Woman's building.

Miss Irene McCullough of Riggsboro is a visitor with her aunt, Mrs. S. W. Babb on West State street. She enjoyed the Elks entertainment Friday night.

### FARM PROPERTY

My choicest offering—sought by many—seldom to be found, just two miles from the square, a 20 acre tract on oiled road leading from one of our main streets and a most beautiful suburban home. Has an excellent house of six rooms with vestibule, fine front and side porch, big light and airy attic, fine basement, concrete floor, a good furnace, acetylene light plant. Two hundred barrel cistern with pump and sink inside and a thoroughly well arranged and nicely finished interior. This house is all on the ground and comparatively new. A fine high graded yard with excellent shade and first class concrete walks.

There is a garage 16x24, there is a chicken house 16x24, well floored with glass south side exposure, a second chicken house in good condition, excellent barn 26x32 with floored stalls for five horses and room for four cows, with corn crib and a large hay mow. There is an out outhouse for 600 bushels. A hog house with ten compartments beside other buildings. There are two five acre lots for crops, two blue grass lots of 3 acres each and a nice field of alfalfa and an excellent orchard just coming to its best.

This is one of the most desirable homes in the vicinity of Jacksonville and can be sold on easy terms. Owner might consider a good modern residence property or farm land in exchange. Could give possession April 1st of this year.

### CITY PROPERTY

No. 662. We have a nice six room cottage on the South Main car line with a lot 40x300 feet. This house is modern throughout and has a barn and chicken house. This looks like a bargain at \$2,100.

No. 661. A four room house with a nice lot in the first ward. This is a nice little home, nice shade, fruit, chicken house and garden. Can be had for \$850.

No. 663. In the second ward, a house of 5 rooms with large lot. Fine garden place. East front. Price \$950.

### MONEY

To those who have not yet secured their farm loan. We can still offer money in lots of \$500 and over.

### Y. P. S. C. E. UNION WILL HOLD SESSIONS

Program Announced for Meeting of New Organization at First Baptist Church

In the auditorium of the First Baptist church next Sunday, March 25, will be held the first meeting of the newly organized society, "The Jacksonville Young People's Christian Union." Discussion will be upon the general theme of "Opportunities for Union Effort." The meeting will commence promptly at 6:15 o'clock and close at 7:15. Miss Lucille Allison, chairman, will preside. Following is the program to be carried out:

Orchestra—Centenary church. Leader, John Kern. Song service—led by Mr. Lant. Scripture reading—Miss Lois Daniels. Prayer—Raymond Ragan. "Opportunities for assisting to organize and strengthen societies"—Edward Tomlinson. "Opportunities for co-operation in social betterment"—H. H. Vascancellos. "Opportunities for co-operation in civic betterment"—Carl Robinson. Special music—Miss Scrimger and Miss Hawk. Discussion—One minute talks by presidents of the various young people's societies.

### Y. M. C. A. MEETINGS

A men's meeting will be held at the Y. M. C. A. this afternoon at 3 o'clock. A musical program will be given. Uriel Goveia will sing a solo. Harold Dunlap and Byron Carpenter will sing a duet and James Capps is arranging a ukelele trio. Following the program C. L. Mathis will give a brief talk.

On Wednesday evening a meeting of the pastors and Sunday school superintendents of the city will be held for the purpose of feeling out the sentiment relative to entertaining the older boys conference here next fall. The convention will be held following Thanksgiving. The conference is composed of the older boys of the Y. M. C. A. and Sunday schools of the state. Last year the convention was held in Galesburg and an invitation was extended by the local delegates to meet here in 1917. A committee will be here soon to ascertain whether or not the community will get behind the conference. The conference will bring between 700 and 800 delegates and they will be entertained on the Harvard plan and a banquet also must be provided. It will depend largely on the local interest as to whether the conference comes to Jacksonville.

Miss Nellie Kinney has returned from a stay of several days at the home of her brother, Daniel Kinney, of Franklin. Mr. Kinney has been very ill of pneumonia, but is now improving.

## Looking Ahead

Successful men of all ages have been able to look into the future. Have you been looking ahead as to what you will need for the car this spring—engine repairs, tires and tubes, batteries etc? If not, now is the time. We anticipated advances in rubber, batteries, and in fact all accessories. Nearly everything advanced the first of the year and from advices received, everything is ready to advance again.

We looked ahead for ourselves, also for you—and bought in a large supply of tires, tubes, batteries, accessories, and in fact everything you are liable to need this spring. Our prices are right for the quality of goods we handle. If you overlook this place before buying you are making a mistake. A trial of our goods and service will convince you. Always a complete line and always at your service.

## FARM NOTES

### Seed Oats Swindle.

We are informed that men have been at work for some time in Illinois selling "New York oats" at a flat price of \$3 per bushel. It seems that many bushels have already been sold, and probably many more will be sold. So far as we are aware these oats have never been tried in the state in any reliable way, though we have one report of their having been used by some farmers last year—with poor results. Seed of the very best varieties of oats, tried repeatedly by the Illinois State Experiment Station and by thousands of Illinois farmers, cleaned, tested, and graded, can now be secured from reliable seedsmen at one dollar per bushel. It is almost unbelievable that good business farmers could be induced to pay \$3 per bushel for seed oats of a variety practically unknown in the state, when the best seed of the best variety might be had for one-third of that price or less. It seems that many people are unable to think straight in the face of glowing sales talks, and it even seems that at times the wilder the scheme the more readily is the pocketbook opened. And after it's all over the victim feels sheepish, and fails to acknowledge his foolishness for the benefit of his friends. Those offered an opportunity to invest in "New York oats" at \$3 per bushel will do well to decline emphatically, and use the phone to warn neighbors.—The Farmers' Review, Chicago.

Governor Burnquist of Minnesota issued the call for the meeting, which will be a purely commercial conference, at which the leading shipping and commercial interests will try to unite with the state officials to develop river traffic.

New Orleans foresees much gain for itself in the new Mississippi River barge line, and in whatever steps are taken by the governors of the various states for the increase of the traffic on the Mississippi and its tributaries. The city's importance as a shipping port will be largely increased, because ships will then call here for accumulated cargoes which now go to sea by way of New York, Boston, Baltimore and other Atlantic coast ports. Her commerce with Mississippi Valley points also will be increased by the new barge line, the present motor barge service of the Inland Navigation Company having established a heavy traffic between here and St. Louis.

In the future it is hoped that these steps will draw to New Orleans, thru cheaper rates, practically all the export and import business of Chicago, Cincinnati, Indianapolis, St. Louis, Pittsburgh, Louisville, Minneapolis, St. Paul, Dubuque and Kansas City, as well as a large amount of interior trade with other points along the Mississippi and all of its tributaries.

The thing which will make all these desirable results possible will be the proposed \$20,000,000 canal connecting Chicago with the Mississippi River by widening and deepening the Chicago drainage canal and the Illinois River as far as La Salle, Ill. This new canal is to be the first of the recent victory of the Illinois Manufacturers' association over the railroad combinations of the Central states. This was gained only a week or two ago when the Illinois supreme court sustained the law providing for the eight-foot channel and the opening of the waterway from Chicago to the Mississippi. Following this will come immediately the broad campaign to remove the rail differential against Chicago which has existed since the opening of the Panama Canal. This will involve a readjustment of rates by way of New Orleans, as well as placing Chicago, New York, and New Orleans on a parity.

### ELECTRIC ITEMS

A new type of electric fan blade, it is claimed, eliminates to a great extent, the whirling sound when the fan is operated at high speed.

A new type of electric soldering iron operates on the principal of the arc welder and Heroult furnace to generate heat for soldering.

Electric generating stations in the United States generated 23,300,000,000 kilowatt hours which sold for \$417,000,000 during the year 1916.

Farmers taking power from the extensive lines of the Atchison, Kan., Railway & Light company read their own meters for the company.

A combination coin and ticket fare box and register for electric cars is so designed as to separate the coins and tickets and register the value of each.

It has been suggested that the dome of the National Capitol at Washington be permanently flood lighted at night with a battery of electric flood lighting units.

Although the electrical industry was founded well within the limits of the present generation it has received in 1916 orders totaling three-fourths of a billion dollars.

Students at Union College of Schenectady, N. Y., have perfected a wireless receiving apparatus of compact form which takes the place of cumbersome and expensive aerials.

A convenient method of assembling several push buttons on the business man's desk is through a round table with the push buttons sunk in a circle and a connecting cord at the side.

Exported electricity purchased by firms in this country from nine Canadian Central stations near Niagara Falls amounted to 1,021,780,359 kilowatt hours or 45 per cent of the total output for a year.

A new type of telephone does away with the receiver, the talking and listening apparatus both being fastened to the transmitter arm or stand and allowing telephonic communication without the necessity of holding a receiver to the ear.

Platinum, which is many times more costly than gold, has grown so in popularity among the buyers of expensive jewelry that its use in the manufacture of electrical apparatus is growing smaller each year as less costly substitutes are discovered.

## MORMONS WON IN FAST GAME AT GYM.

Saturday's Contest in Junior Basketball League One of the Best of the Season.

One of the most interesting as well as the fastest Junior Basketball games was played Saturday morning at the Y. M. C. A. Gym, when the Mormons played the Fords in the Junior A League. Each team had their full team ready for action and each confident of the victory. The first half the guards covered up so well that not a single field basket was thrown and the Fords succeeded in getting a lonely foul toss.

The next half the team work was better and both teams played an aggressive game. Geo. Green played a wonderful game at defensive guard blocking pass and breaking up the team work. The Fords were off in their basket shooting this half and the Mormons were not much better but when the whistle blew at the end of the game the Mormons were ahead 6 to 5.

### DEAD LETTER GOODS OFFERED FOR SALE

Postal Department Had Big Showing of Goods in Chicago—Bids Will be Made at Auction March 19th.

Chicago, March 16.—Bargain hunters today inspected 351 lots of merchandise, comprising about 50,000 articles, useful, ornamental or neither, all of which after being inspected by the mails have reached the dead letter office here. They have been invited by the federal government to make their bids at public auction March 19.

Inspection of the motley display will be permitted today and tomorrow when the lingerie and stove lids; tooth brushes and baseball bats, glass eyes and pepper shakers; modest creations and celluloid collars, tagged and assorted in the 351 odd lots will be ready to be examined by those who are mindful of the proverbial danger of buying a "pig in a poke."

The heterogeneous collection is largely made up of parcel post packages, misdirected, uncalled for or barred by the federal regulations. The auction is an annual event in the Chicago postoffice and this year the officials say the accumulation is more than usually varied.

# WHY BUY A BATTERY?—BUY PERMALITE

## LASTS FOREVER

### PERMALITE IS MORE THAN A STORAGE BATTERY; IT'S AN EXCHANGE SYSTEM OF BATTERIES.

Permalite solves the starting and lighting problem for motorists for all time, because with a Permalite lease (which is perpetual and costs about the same as the price of one ordinary battery) you can drive up to our place, or any Permalite service depot in the country, and in fifteen minutes drive away again, with a fully charged Permalite in perfect condition.

The cost of a Permalite exchange is \$1.25; same as average cost of recharging an ordinary battery.

The life of an ordinary battery is two years, therefore every two years you can save the cost of a

new battery. And your car is always in service. If you use the ordinary battery you must rent or borrow another battery, or your car is tied up for twenty-four hours or more every time your battery is charged or repaired.

Permalite will relieve you of your battery worries forever.

Consider the convenience to the motorist whose car is equipped with a Permalite storage battery. He can drive up to our Permalite charging depot (or anywhere in the United States, and upon the payment of \$1.25 exchange his battery for another Permalite fully charged and in perfect condition. To exchange a Permalite storage battery for another requires only 15 minutes time, contrast this with

the usual procedure, when a battery requires recharging, where the motorist is compelled to leave his car in a garage for 24 hours, or else pay rent for another battery. In addition to this incidental delay or expenditure, the motorist with another battery often finds a repair bill staring him in the face. With a Permalite the motorist never incurs a delay or expense for repairs on his battery, because when anything goes wrong with a Permalite he exchanges his old one for a new fully charged battery, in perfect condition, at the cost of only \$1.25.

In order to make Permalite as nearly 100% efficient as possible we require all Permalite users to exchange their batteries at least once every three months.

After you have leased a Permalite, you have ended your storage battery troubles for life, because a Permalite lease which costs about the same as any standard storage battery, is perpetual. From the standpoint of the motorist, a Permalite storage battery NEVER WEARS OUT.

See us, ask us for Full Information. See these Batteries in our window.

laugh  
But, they help to fill the column.

Experts may survey and figure but  
providence usually furnishes the  
water.

We haven't heard of any ice being  
shipped to Europe but it will not  
surprise us if the dealers raise the  
price of ice this year on account of  
the war.

### EAT WITHOUT FEAR OF INDIGESTION OR SOUR, ACID STOMACH

Instant Relief! "Pape's Diapiesin"  
Ends Your Stomach Distress.  
Try It!

Wonder what upset your stomach  
—which portion of the food did the  
damage—do you? Well, don't bother.  
If your stomach is in a revolt;  
if sick, gassy and upset, and what  
you just ate has fermented and turned  
sour; head dizzy and aches; belch  
gases and acids and eructate undigested  
food; breath foul, tongue coated  
—just take a little Pape's Diapiesin  
to help neutralize acidity and in  
five minutes you wonder what be-  
came of the indigestion and distress.

Millions of men and women today  
know that it is needless to have dyspepsia.  
A little Diapiesin occasionally  
keeps the stomach sweetened,  
without fear.

If your stomach doesn't take care  
of your liberal limit without rebellion;  
if your food is a damage instead  
of a help, remember the quickest,  
surest, most harmless antacid is  
Pape's Diapiesin, which costs only  
fifty cents for a large case at drug  
stores. It's truly wonderful—it  
stops food souring and sets things  
straight, so gently and easily that it  
is really astonishing. Your stomach  
will digest your meals if you keep  
acids neutralized.—Adv.

### ST. PATRICK'S DAY.

They marched proudly down the  
street

To music of drum and fife,  
You can sing "Wearing of the Green,"  
But don't say Orange on your life.

An exchange headline says, Stone  
wants more light. It would seem  
that Mr. Stone wanted to walk in  
darkness judging from his actions  
in the senate recently.

At the dressmakers convention  
held in Chicago it was decreed that  
women's skirts should hang straight  
this season. Mercy whoever heard  
of a woman's skirt not hanging  
straight.

An exchange headline says, "Can  
you imagine Milwaukee dry?" Yes  
we can but it is an awful thing to  
contemplate.

A club woman in a neighboring  
town read a paper before her club  
recently on different ways of preparing  
potatoes and their food value.  
What most housewives are interested  
in more now than the food value  
of the potato is its money value.

St. Patrick's day was rather cold  
for planting potatoes.

If any of the readers of this  
column are contemplating a visit to  
Russia they should be sure and visit  
the following cities: Ostjgorodisch-  
chenski, Chraschtschewka, Blagowieschensk,  
Mostowojelachow, Starochchenowskaya and Alex-  
androvskayastoboda.

In spite of the threatened rail-  
road strike and the overthrow of the  
czar Villa managed to get into the  
news dispatches the last few days.

It would be a mighty good thing  
while the revolutionists are turning  
prisoners out of jail in Russia to  
release the poor devils in the jails  
of Siberia.

### TO RILE CAMP.

I liked your little poem Bill,  
It surely gave my heart a thrill,  
But it made me sad and tearful,  
Next time write something cheerful.

It begins to look as if the Mr.  
Stushes was right during the cam-  
paign last fall when he said that  
the Adamson law would not settle  
the controversy between the rail-  
roads and the employees.

We note in the papers that it re-  
quires \$351 per year for the average  
woman's wardrobe. It is probable  
that the average woman gets that  
amount minus \$600.

According to the provisions of a  
bill passed by the legislature last  
week all bridges in the state must  
be painted white. Red should have  
been specified for painting things  
red is still a popular pastime in  
many parts of the state.

### WHEAT PROSPECTS

A number of farmers from various  
parts of the county talk rather  
encouragingly regarding the wheat  
crop and nearly all agree that hard  
wheat will come out all right while  
there is some doubt regarding the  
soft varieties. John Cain residing  
south of the city said he had sev-  
enty acres and feared that it would  
be rather light as it was of the soft  
variety while several from other  
points said they felt encouraged re-  
garding hard wheat and all agreed  
that a few weeks would materially  
tell the tale.

### The Country Girl's Problems and Opportunities

(By Dr. Anna McFarland Sharpe)

The bureau of agriculture of the  
U. S. government, under the divi-  
sion of junior extension work, has  
recently published a bulletin in  
which appears a paper written by  
Dr. Anna McFarland Sharpe, on the  
subject of "The Country Girl's  
Problems and Opportunities." Dr.  
Sharpe has been making a study of  
these problems, more especially  
training school work for young wo-  
men and industrial work of city  
girls. Dr. Sharpe has been appointed  
medical director of the Women's  
department of Armour & Co., one  
of the largest corporations of the  
country, employing over 6,000 wo-  
men in Chicago alone. Her head-  
quarters for the present will be the  
Stock Yards Inn in Chicago.

There have been few developments  
in recent years of greater educa-  
tional interest and significance than  
the work done by associations of boys  
and girls in Agricultural and Do-  
mestic Art undertakings.

The interest in this form of school  
extension work in agriculture is  
widespread. The work being accom-  
plished by the Extension Division  
of the United States Department of  
Agriculture is stimulating our Amer-  
ican boys and girls in a greater lik-  
ing and respect for farm life.

Demonstration agents are co-oper-  
ating with parents and teachers in  
enrolling names of young people  
and organizing Clubs throughout  
the country. There are Boys' Pig Clubs,  
Boys' and Girls' Poultry Clubs, Corn,  
Cotton, Potato and Fruit-growing  
Clubs, all of which is having a pow-  
erful and marked influence upon the  
country life of our young people.

Life is Dull for Girl.

Among our people living in isolated  
communities, there is sometimes  
a member of the household who ap-  
peals to our sympathy more deeply  
than others. I refer to the adoles-  
cent girl. In some cases she hap-  
pens to be the only daughter in the  
family, and is kept at home in or-  
der to assist the mother with the  
housework. This becomes a drudg-  
ery and her life is dull and gray  
and leaden. Her work becomes un-  
desirable because of lack of outside  
interests and diversion. The nature  
of her duties is such that it becomes  
monotonous, and before such girls  
marry and possess homes of their  
own, housework has become to them  
an irksome duty, to be performed in  
the quickest way possible without  
regard to the sanitary and hygienic  
rules, and consequent neglect of hap-  
piness and comfort to husband and  
children follow.

To be able to put a girl's work  
into definite attainable parts would  
make possible the measurement of  
her work. The difference between  
work done by men and women on the  
farm at the present time is that  
men's work is measured by dollars  
and pounds and tons, while wom-  
en's is unmeasured. No scientific  
adjustment is possible except upon a  
basis of measurement, but her work  
is simply a repetition of one thing  
after another, without beginning  
and without end.

The average farmer pays his son  
the usual farmhand wages, when he  
has reached a certain age, and has  
demonstrated that he can do the work  
of a man; but how about the daugh-

ter,—what compensation does she re-  
ceive beyond her board and cloth-  
ing?

#### Have Status in Community.

Girls should have their status in  
a community, not because of doing  
woman's work only, but should be  
known by other things, not neces-  
sarily feminine, but merely human.

Visiting the isolated communities  
and organizing girls into Clubs re-  
commended by the Bureau of Animal  
Industry and Agriculture, such as  
Pig and Poultry Clubs, Canning,  
Fruit and Vegetables Clubs, etc., is  
going to work a wonderful influence  
upon the communities, parents as  
well as children, and there will come  
about a general upward trend in the  
thoughts and activities of these girls  
who heretofore have had little to  
interest them in life.

The great success of Boys' Pig  
clubs in the South has stimulated an  
interest in swine production never  
known of before. The object of  
such Clubs is to teach the boy how  
to raise better and cheaper hogs;  
also to complement the work of  
Boys' Corn Clubs. To encourage  
the home curing of meats; to teach  
the boys how to judge hogs; to in-  
struct the boy in the management  
of feeding, sanitation and the pre-  
vention of diseases of swine, and  
best of all to give the boys a means  
of earning money for themselves.

Such clubs for girls as will instill  
in them while young a love of an-  
imals will result in their taking more  
interest in farm life and furnish a  
practical way in giving them an in-  
sight into the business side of farm  
life.

#### Outlook Promising.

The outlook for the farm woman  
never was so promising as today. The  
automobile is doing much in em-  
ancipating the women of the farm, and  
other inventions are adding a help-  
ing hand.

Miss W. A. Warner in an address  
before the delegates of The Interna-  
tional Farm Congress in El Paso  
said:

"Land was never worth 3 cents an  
acre until some woman came and  
made a home on it."

The homes our women are mak-  
ing today (with the assistance of  
the U. S. Government) and teaching  
their daughters to make, is quite  
different from the homes of pioneer  
days.

Their viewpoints are being broad-  
ened by contact with others and the  
power of taking the initiative,  
strongly developed. The girls as in-  
dividuals become responsible mem-  
bers of the community and Club  
members. They have an opportunity  
of developing the social instinct,  
where the isolated condition of the  
people has long been a hindrance to  
such progress.

Practical housekeeping centers  
should be established in all com-  
munities not furnished with a Do-  
mestic Science Department in the  
school, where girls can be taught how  
to make attractive and healthy  
homes.

The value of hygiene and sanitation  
as applied in the home, if prop-  
erly taught to these girls, would  
mean better health and greater  
strength, not only for themselves,

but for the entire family and for  
future generations.

#### Value of Knowledge.

The truth should be emphasized  
that knowledge helps in the better-  
ment in human life, and that Home  
Economics stands for an ideal home  
life. It means vastly more than cook-  
ing and sewing; it means cleanli-  
ness, beauty, economy and in time  
strength and money. It stands for  
health, high standards of living and  
high ideals of interest in the com-  
munity. Such ideals taught to our  
girls in the country who have become  
discouraged with the monotony of  
farm life would save many from that  
unspeakable unrest and dissatisfac-  
tion which leads some to the cities  
for a life of sin and degradation.

As a member of a Community Do-  
mestic Science Club where new  
thoughts and interesting work is in-  
troduced, many a young girl may  
have her entire life transformed. The  
adolescent girl really discovers an-  
other self and soon makes out a new  
and enticing ideal for her future  
home. Once the average girl has  
had her life well defined and learned  
the principles of ideal home-mak-  
ing, she has made the necessary be-  
ginning of a beautiful and happy  
career.

#### WOMAN'S COLLEGE NOTES

Dr. R. Watson Cooper, secretary  
of the Association of American Col-  
leges, was the guest of President  
and Mrs. Harker on Friday and  
Saturday.

Miss Emmet Walker gave her third  
lecture on feeding the family, Fri-  
day afternoon at 3 o'clock. These  
lectures are given on the basis of  
actual needs and conditions and are  
the results of a vast amount of study  
by Miss Walker, who has made  
this her life work and who is an  
expert along such lines.

On Monday evening March 19th,  
at 8 o'clock in Music Hall occurs a  
recital in expression by four of the  
advanced pupils in the department.  
The program will be varied and one  
that will appeal to all interested in  
this work. A cordial invitation is  
extended to all.

Dr. and Mrs. Harker entertained  
the seniors on Friday evening at  
dinner in the college. After the  
dinner an informal program was  
given. The evening's program was  
completed by singing the College  
song.

Saturday the juniors had  
one of the chapel exercises. After sing-  
ing "The Wearing of the Green,"  
Miss Lavina Jones gave a reading,  
this was followed by a quartette.  
At the conclusion of the St. Pat-  
rick's Day program Dr. Cooper  
spoke briefly.

The art exhibition continues to  
draw a number of visitors each day.  
A great many of the school children  
have been guests of the art depart-  
ment.

Miss Mothershead, dean of the  
college, has returned from a few  
days spent with relatives in Chi-  
cago.

The Phi Nu and Amada Alpha  
Mu literary societies held their mid-  
year banquet Saturday evening.
